

George Timothy Clooney (mother's maiden name Warren) born on 6 May 1961.

### **Introduction.**

Name Reality is a simple mathematical formula that anybody with basic skills can use to calculate a person's character and life events. In a nutshell, there are 64 personality types dividing the human race, just as there are 64 fundamental forces that constitute the action of the Universe. You may have seen the numbers 1 to 64 before. There are 64 codons that make up human DNA. There are 64 hexagrams in the I-Ching and there are 64 squares on a chess board. It is recognized as a powerful mathematical force. Numbers are selected for each letter in your name, then added together to calculate which of the 64 personality types you have for each one of your names. Each name has two personalities. I call these primary and undertone. Each name you have is the result of both these personalities. In turn, you are the combination of the personalities from all of your names. This goes further to include your mother's maiden name and the number and the day you were born. Every one of us is the combination of at least 7 personalities or 9 if you have a middle name.

You can see how by a quick mathematical calculation you are one in 500 million or one in 200 billion if you add a middle name. Similar as the odds of two people having the same DNA, this system is incredibly accurate.

The second part of Name Reality reveals how letters in your names change and rotate on your birthday. Using the mathematical formula you can calculate a life chart showing which letters are active in what year. Every letter has a definition. Some are good and some are not so good. Again, it is the combination of these three or four letters, one from each of your names that dictate influences for that year of your life. For example; **F, H, U, V, W** and **X** can have a negative influence. **C, G, J, K, L, N, P, Q, Y** and **Z** tend to have a positive influence. Letters **A, B, D, E, I, M, O, R, S,** and **T** can swing either way depending upon the positive or negative from other letters active in the same year.

Any one name for the most is good. Just as you can touch any one key on a piano and it will sound good. When you press two or more keys at the same time or play with two hands, it is important you press the right keys. If you press the right combination of keys, you produce beautiful music. If you press the wrong combination of keys, at best you are out of tune, or worst, you become a dreadful noise. Your names apply a similar action. Here are the calculations for George Clooney.
